

Measurements Needed for Military Gaitered Trousers (and breeches):

- have someone else take the measurements
- when taking the measurements, the tape should be held easily and naturally, neither held slack nor drawn tight.

Measurements:

1. _____ Circumference of waist, at top of the hip bone (just below navel).
2. _____ Circumference of the hip bones.
3. _____ Circumference of the thigh.
4. _____ Circumference of the knee.
5. _____ Circumference just below the knee.
6. _____ Circumference of the calf.
(N/A for breeches)
7. _____ Circumference of the ankle.
(N/A for breeches)
8. _____ Measurement from crotch to thigh measurement, along the inseam.
9. _____ Measurement from crotch to knee, along the inseam.
10. _____ Measurement from crotch to calf, along the inseam.
(for breeches, measure from crotch to just below knee)
11. _____ Measurement from crotch to ankle, along the inseam.
(N/A for breeches)
