Regimental Coatee – Before doing anything, contact Erick Nason for info on the ordering process, materials, estimated cost, etc. [Carl Johnson](#) will provide coatee kits, and partially-finished to completely-finished coatees. You will need to send him the fabric, plus various materials (depending on how far he finishes the coat).

The Blue wool is from the Discriminating General <http://www.militaryheritage.com/wool.htm> which is their indigo/blackish blue color; and they are a source of red, along with [Roy Najeki](#). C&D Jarnigan’s Regimental Coat: [#4406RW](#); 48, 50, and RWB: 400-485, plus if you want them to sew the buttons on. Buttons won’t have the “2”, so you want want to order it without buttons. Need to have the turnbacks and facings in Red (Send picture of our coat)

Militia Impression: Refer to the Outwater's Militia page for good information about developing a RevWar militia impression. Caveat: this info is tailored to northern colonies. For a southern point of view, check out the info from Fort Dobbs in NC. It focuses on the 1750s-60s, but most of the info is relevant to the Revolutionary period as well.

[JAS Townsend](#), [GGGodwin](#) or [C&D Jarnigan](#) have civilian clothes that can be used for militia
